Please join Interfaith Works for an evening presentation with founding members of Combatants for Peace (CfP) about their work and mission. CfP is a grassroots movement of Israelis and Palestinians working together to end the occupation and bring peace, freedom and safety for all people between the Jordan river and the Mediterranean sea. Committed to joint nonviolence since their inception in 2006, CfP uses civil resistance, education, and other creative means of activism to transform systems of oppression and build a free and just future based on collective liberation.

We will gather to co-imagine a future worthy of all people and discern how we can act together to build it, now.
